MORE CURES

EFFECTED BY DR. CORBETT'S SHAKER SYRUP OF SARSAPARILLA!

The following is from Jacob P. Eastman, of Concord, N. H., extensively known as an efficient Railroad Contractor and Builder, throughout the New England States.

BOSTON, March 8, 1849.

Messrs. E. BRINLEY & Co.

Gentlemen:—Happy am I to inform you of the wonderful effects of Corbett's Sarsaparilla upon a little daughter of mine, who was poisoned, when at the age of about three years, by *vaccination*.—Eruptions of the skin covered her whole body for more than twelve months, discharging the most offensive matter. We were compelled after months to oblige our little sufferer to wear mittens while in bed, and to adjust her night-dress by closing the openings at the hands and feet so as to prevent her from tearing her flesh. Between with these precautions, she would, at times, release her hands by gnawing her mittens about the finger ends and then scratch and lacerate herself severely until the blood would flow.

She is now nearly restored to health, having used no other medicine for the last two years than "Corbett's Sarsaparilla." The effect of this powerful alterative is most signal, commencing to cleanse the whole system and eradicate all diseases. The skin of our little girl is now fair as that of infancy, and her system rapidly changing from impurity and disease to perfect health, and this I know to be the result of the use of Corbett's Sarsaparilla only.

J. P. EASTMAN.

Made and put up by the Society of Shakers.—None genuine without these signatures of Dr. Corbett, E. BRINLEY & CO., Sole Agents, Boston.

DR. CORBETT'S HIGHLY CONCENTRATED

SYRUP OF SARSAPARILLA.

The Formula of this invaluable Preparation has been laid before many of the different Medical Societies in New England, and has received in every case their especial commendation. It has been acknowledged as the most powerful antidote yet known! Thoroughly Cleansing the Blood! Eradicating Scrofulous Taint and affording the most healing qualities to Diseased Lungs! and giving to the consumptive Restoration to Health!

The celebrated Surgeon and Physician, Dr. Valentine Mott, President of the New York Academy of Medicine, has given his especial notice to the accurate Preparation of Dr. Corbett's, and permits us to refer to him as to its virtues.

This is testimony most ample! but in Boston, other distinguished Physicians have also afforded their approval of this signally efficacious medicine. Such as Dr. J. C. Warren, Dr. J. W. Warren, Dr. Geo. Hayward, Dr. John Jeffries, Dr. J. V. C. Smith and others; many of whom have given their names in writing in favor of its sanative powers.

Alexander B. Mott, Esq., Druggist of New York, son of the distinguished Dr. Valentine Mott, writes us under date Nov., 1849:—

"The Physicians of this city who have made use of Corbett's Syrup of Sarsaparilla, express themselves pleased with its effects and are constantly ordering it."

These are credentials the public may rely upon! for they are those of the highest authority and the largest experience in Medical Science and research.

LITTELL'S LIVING AGE,

E. Littell & Co., cor. of Tremont and Bromfield Streets, Boston.

This work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshness to it by many things which were excluded by a month's delay, but while thus extending his scope and gathering a greater and more attractive variety, is able so to increase the solid and valuable part of his literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenæum, the Critic and industrious Literary Gazette, the considerate and comprehensive Britannia, the sober and respectable Christian Observer; these are interwoven with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tait's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. He does not consider it beneath his dignity to borrow wit and wisdom from Punch; and, when he thinks it good enough, makes use of the thunder of the Times.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, with all parts of the world; so that much more than ever it now becomes necessary to all of American to be informed of the condition and change of foreign countries. And this not only because of their many connection with ourselves, but because the nations seem to be hastening, through a rapid process of change, to some new state of things, which no merely political prophet can foresee or foresee.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, stand favorite matter for his selections; and, in general, the editor systematically and very fully acquaints his readers with the great department of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who keep them selves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers, and Physicians—to men of business and men of leisure,—it will be found to be equally attractive and useful to their wives and children. It is indeed the cheapest work of the day. We say in this literally, because in the way of cheap literature it stands impossible to guard against the imitation of what is bad in taste and principle, in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental man must and will be gratified.

By "winnowing the wheat from the chaff" by providing decidedly for the intelligent, and by a large collection of Biographies, Voyages and Travels, History, and Miscellany, a work is produced, well adapted for universal popularity, and to relieve the mind and the public taste.

This excellent work is published every Saturday, by E. Littell & Co., Boston, who supply orders by mail from all parts of the country. Remittances sent to them, and they will send the work to the Post Office. Each number makes a handsome octavo of 48 pages, double column, octavo. Price, 12 1-2 cts., or $6 by the year, in advance. We could not conceive a recommendation, what our readers will value infinitely more, a letter from the late Ex-President J. Q. Adams:—

"WASHINGTON, 25th October, 1845.

"Of all the Periodical Journals & Gazettes or Literary Miscellanies with which I deal in Europe and the United States, I have appointed to you to be the best by far. It contains in it all the exposition and all the critical discussions of the English Reviews, and the cream of the Monthly Magazines, and of the Literary Gazettes, and Literary Journals, and Newspapers, and Political Pamphlets, and Speeches in Parliament, and Lectures on Science, and Criticisms on the Fine Arts, and Poetry, and Romance, and Miscellany, that the Transatlantic press can furnish, and all this in a weekly publication of 64 octavo pages, double columns, at a subscription price of six dollars a year.

"I am, Sir, your obedient servant,

"J. Q. ADAMS."

DR. CORBETT'S SYRUP OF SARSAPARILLA

EFFECTS WONDERS!

Read this remarkable case of JOHN DAVIS, *Sexton of Rev. Edward T. Taylor's Church, Boston.*

I, the undersigned, Sexton of the Church of that good man, Father Taylor, state the following facts, which I think should be told a world. I was born in Portugal, and am now forty years of age. My parents were healthy, and I was not afflicted by any disease until the year 1845. I was then residing in Boston. At that time my skin became subject to a leprous, which at last was said to be nothing myself and friends. Severe sores and abscesses developed themselves: large scales are now deeply imprinted on my forehead and other parts of my body, and by their excoriation bled and even into the bone. Many months since my afflictions seemed increasing.—Unexpected sores of the foulest character came out on my arms, my head, and even attacked my eyes. I became weak, emaciated, and unable to perform the duties of life for my daily livelihood. Failing of receiving any benefit from physicians who prescribed for me, I resorted to the use of various Sarsaparilla compounds, as advertised, but with no benefit. The able and distinguished surgeon and physician, James Ayer, M. D., Lowell, over whom, who had watched my case, at last advised me by using Corbett's Shaker Sarsaparilla.

I am happy now to state that my general health is fast improving, the scrofulous developments on my head, arms and face quickly passing away, and not until this moment have I had any hope of a reserve from the grave. To Corbett's Sarsaparilla do I above attribute this astonishment, as my worst ill I had adopted no use, (and this in minute quantities,) have I for four years been only relief from suffering.

DR. CORBETT'S Concentrated Syrup of Sarsaparilla.—The Ruling Medicine of the Day.—Thus writes L. W. Wright, Esq., the well known, efficient and gentlemanly Conductor on the Concord Railroad.

Boston, Feb. 21, 1849.

Messrs. Edward Brinly & Co.

Gentlemen:—In March last, 1848, I was prostrated for several weeks with an inflammatory brain fever, which left me in a weak and feeble state.

A friend advised me to buy a bottle of "Corbett's Concentrated Shaker Sarsaparilla," which I did, with the happiest results. Before I had completed the first bottle, I was conscious of a decided improvement, both in strength and my general health. I have since used several additional bottles, until my health is better, and my constitution apparently stronger than it has been before for years. To those similarly afflicted as myself, and troubled with constitutional debility, loss of appetite, or impure blood, whether previously by actual disease or otherwise, I can cheerfully recommend the Shaker Sarsaparilla, as being in my opinion it is the most effective and healthy-alterating medicine known.

WONDERFUL EFFICACY OF DR. CORBETT'S HIGHLY CONCENTRATED

SYRUP OF SARSAPARILLA.

Further evidence as to its Virtues.

To Messrs. E. Brinley & Co.

Gentlemen:—Some time since you kindly sent me a few bottles of Dr. Corbett's Shaker Sarsaparilla, believing, as you said, it might help me; for I had been out of order, and my Stomach annoyed by dyspeptical complaints. As I had long been using other Sarsaparilla Compounds with injury rather than benefit, and having tried various remedies with no help whatsoever, I felt unwilling to attempt anything further. But relying on the distinguished names of Physicians attached to the medicine, I began the use of one bottle. Using it only in small doses, I found my stomach gradually regaining its tone. After a steady and gratifying use of it for some months, I found my whole system thoroughly changed. My appetite was restored; my Blood clear, active and pure, and health once more abounding. Some of my friends most painfully afflicted with diseases of the Skin, Liver Obstruction, and who have used some Consumptive habit, are now using this wonderful medicine with most astonishing efficacy. In my own case, I am happy to state the cure was complete beyond my best anticipations.

Very gratefully, your obliged friend,

JOHN T. FIELD.

DR. WISTAR'S

BALSAM OF WILD CHERRY.

This celebrated and infallible remedy for the cure of Consumption, Asthma, and Liver Complaint, was discovered some ten years ago. Since that time it has, by its own merits, been rapidly, surely, and safely working its way through the opposition of quacks and counterfeiters, until by its true value, a distinguished excellence, it has placed itself in the most enviable popularity and established itself in the confidence of an intelligent and enlightened public, from one end of the country to the other. The testimony of those individuals who have been relieved and cured by this valuable remedy, will show that it stands unrivalled. Read the list of all other medicines for diseases of the throat for which it is recommended. The genuine Dr. Wistar's Balsam of Wild Cherry is sold by duly appointed Agents, and all respectable dealers in medicine, in all large cities and principal towns throughout the United States, Canadas, and British Provinces.

None genuine unless signed I. BUTTS, on the wrapper.

FACTS TO BE REMEMBERED.

That Consumption is almost always preceded by a cold that might easily be cured. That Wistar's Balsam of Wild Cherry will cure any cough, *recent*, no matter of how long standing. The milder forms of Consumption itself are cured by this Balsam. That it is recommended by many distinguished clergymen and physicians that this Balsam is not to be compared for efficacy in all diseases of the *lungs* and *throat*. That some new claims in the possession of good health who, but for this *Balsam*, would have been in their graves—that it has been given up to die by their friends and physicians.

Dr. Bickford Knapp, of Canton Point, N. Y., in a letter now before us, says: "In the course of my practice in this vicinity, I have tested the virtues of the good specific of *Wistar's Balsam of Wild Cherry* in Pulmonary Complaints, and I take pleasure in giving my testimony to its value."

UNITED STATES ARSENAL,

Dec. Fankstown.

DEAR SIR:—Having used several bottles of Wistar's Balsam of Wild Cherry in my family, for myself, and others to which it is recommended, with the most flattering success, I take pleasure in saying, and also recommending it to the public as the best remedy for Coughs, Colds, Consumption, and all diseases of the Throat and Lungs.

Yours, &c.,

PROFESSOR A. C. BARRY'S

TRICOPHEROUS OR MEDICATED COMPOUND,

INFALLIBLE for preserving, invigorating, and beautifying the Hair, removing Scurf, Dandruff, and all affections of the Scalp, and curing Cutaneous or Skin Diseases of the Glands, Muscles, and Integuments, and relieving Stings, Cuts, Bruises, Sprains, &c., &c. With this preparation "Baldness is unknown."

The following testimonials are but a few of the many in our possession, which will speak for themselves, and to which we invite the attention of the ladies, who have used it for years for their dressing to preserve the hair, prevent it from falling, for invigorating vigor, glossiness, and curl to the hair, eradicating scurf and dandruff, healing wounds, curing cutaneous eruptions, itchings, &c., and relieving diseases of the skin, the glands, and the muscles—it has no equal among the multitude of compounds about it in the public papers, and in private practice. In the course of the well known Barry's Tricopherous is unrivalled. Two minutes rubbing of the article, have enabled that attention to supply it to retail at twenty five cents per bottle, which is likely to one hundred per cent. less than the price of any other preparation in existence. The article has directions for the ordinary and proper use of Nature's choicest gift, (a) which is likely to be misused, and so with the article.

The subscribers have the Barry's Tricopherous constantly on hand, and the public will please to observe the signature of the Proprietor on the wrapper of each bottle, without which none are genuine.

The Daily News.

NEWPORT.

BY CRANSTON & NORMAN,

127 Thames Street.

MONDAY MORNING, MAY 20, 1850.

☞ The numerous thefts which have been committed in this town, during the last two or three weeks, ought to be a warning to our citizens to keep their doors constantly fastened. It is an easy matter to have a night-lock upon a door, which will fasten itself when the door is shut, and it may be unlocked by a small key, from the outside, by those who have occasion to pass in and out often.

In this connection, we again urge upon our citizens the importance of establishing a Night-watch during the summer; just as important as the Town is filled with strangers, shall we also be victimized by thieves and rogues of all kinds; these are the necessary attendants of the crowds which assemble where Fashion beckons her votaries. The once pleasant security and quiet air of Newport is fast vanishing, and we are having introduced here all manner of vices.—During the last year or two, several houses of ill-fame have been kept in the most public parts of the town, where females of abandoned and infamous characters have revelled in all the obscenity and sensualism which degraded humanity is capable of.—Young men have been enticed into these dens,—and not only young men, but mere boys, and here they are pursuing a course which is ruining their constitutions, and damning their very existence. Yet these sinks of iniquity are permitted to exist, exerting, as they do, their horrible and fearful influence around in various directions. Respectable families who live in the vicinity of these brothels are annoyed, and virtuous women are compelled to be eye-witnesses of scenes which cannot but disgust. Why are these things permitted? The law is ample for the protection of the community, and the preservation of the moral atmosphere from the miasma which arises from such reservoirs of corruption. Let the evil be remedied, and let these houses of ill-fame be broken up; it is a matter in which the whole community, particularly men who have families, should be interested,—and they should all lend their assistance for the accomplishment of so desirable a return.

☞ The men who were detected coming from the house of Samuel Weston, Esq., Friday evening, were examined before Justice Gilpin, Saturday morning. One of them gave his name as William Brown: he was seen by Mr. Weston's son coming out of the house, and was pursued by an officer and others over the Beach, but they did not succeed in taking him; he was afterwards arrested at the United States Hotel. On his person were found a gold watch, a pen-knife, gold chain and heavy gold ring, set with a blood-stone; on the knife is engraved "L. H. Sears." The other gave his name as Alfred Edmands; he was taken at the Beach; on his person several articles were found,—among them two bills in favor of Albert Field, of Taunton, for castings, plates, &c.; one Sept. 15, '49, the other October, '49; also a Physician's prescription, a brass key, and another all against Howard & Edwards. They were committed to take their trial before the Court of Common Pleas, this week.

Miss Porter, a daughter of William T. Porter, identified Edmands as the man whom she saw come out of her father's house, Election morning, and she also identifies the chain as the one which was stolen from her room at that time.

We trust that all those who are interested in the property which has been stolen here during the last three or four weeks, will give all the information which they possess to the Attorney General, early to-morrow morning, so that the Grand Jury may find the necessary Bills. It is important to convict these men, in order that others may be intimidated from committing like depredations. Since these gentry are inclined to favor Newport the scene of their operations we think it best to give them an attentive and prompt reception, and provide quarters for them at the States Prison. These men were arrested by Officers Seaton and Heath.

☞ Walter Lenox, Esq., has been nominated as candidate for Mayor of Washington, D. C., in place of W. W. Seaton, Esq., declined.

☞ The Germanians are giving Concerts in New Bedford. They are to give two Concerts in Taunton, the last of this week. As exquisite performers, they are unequalled by any Musical Company which we have ever had in this country.

Poet Laureate.—Since the death of Wordsworth, the Poet Laureate, Alfred Tennyson is spoken of to fill the vacancy.

☞ Professor Mitchell of the Cincinnati Observatory has been elected an honorary member of the Royal Astronomical Society of England.

In Pennsylvania [illegible] politically so called, have chartered [illegible] new banks at this session.

The very Latest in regard to the Cuba Expedition.—The New York Sun of Friday morning, received by last night's mail, publishes nearly a column of disclosures, which it is permitted to make, in reference to the movement against Cuba.—The Expedition will disembark at Baracoa and the Island of Pines. Baracoa is a small port at the eastern extreme of Cuba, and is defended only by a fortress at the entrance of the harbor. The Isle of Pines is a small island at the western end of Cuba, on the Southern side, and is garrisoned with only five hundred troops. From Pines they could get to the main land very easily.—From Baracoa they would march to St. Jago, the capital, entering it in the rear of the fortresses, and entirely beyond their reach. They estimate that Spain has about 20,000 troops on the island, 6,000 or 10,000 of which she will be obliged to keep at Havana. The article in the Sun concludes as follows:

Senor Don Calderon, the Spanish Minister at Washington, is, we learn, in a terrible state of consternation.

He has been splendidly baffled. He has had his spies and agents all over the country, paying them well for information, and supposing he had it, when in truth he was *utterly blindfolded*.

The Cubans themselves acted as his spies, and were thus enabled to humbuzzle him as they pleased, and so send off their vessels and men without any difficulty whatever.

Naval.—The U. S. sloops of war Germantown and Albany, were at Port au Prince 26th ult.

U. S. frigate Congress for Brazil, was on Saturday morning towed down from the Norfolk Navy Yard to the anchorage ground.

Letters from the East India Squadron of Feb. 21, state that the health of the squadron was very good.

Sandwich Islands Princes.—Among the passengers in the Hibernia are Dr. Judd, the Secretary of Foreign Affairs of the Hawaiian Government, and the two Sandwich Island princes, A. Liholiho and L. Kanehameha, who have accompanied Dr. J. in his mission to the government of this country and England and France.

The visit of Dr. Judd and his intelligent proteges to Europe, as well as to this country, has excited great interest; and their reception everywhere has been such as must have been gratifying to them, and beneficial to the commercial and political interests of the Hawaiian nation. The young princes are nephews of the king of Hawaii. They are brothers, and are both under 20 years of age. They speak English thoroughly, and are accomplished in their manners.

Frederika Bremer.—The Savannah Republican, of the 1st instant, says:

Miss Frederika Bremer arrived in this city the night before last, and departed again yesterday morning for Macon. She will return in a few days and take lodgings at the Pulaski house.

☞ The two vessels of the Arctic Expedition, now at the Navy Yard, Brooklyn, are taking in their stores, and will sail in a few days. There has been no difficulty in enlisting men for the service. There have been more applicants than there was room for. Both the Advance and Rescue are equipped, and transferred to the Navy Department, and their officers appointed as follows:—Of the Advance, Lieut. De Haven, commanding; Wm. H. Murdaugh, passed midshipman; W. S. Lowell, midshipman. E. K. Kane, passed Ass't Surgeon, is expected to join the expedition soon. The following are the officers of the Rescue: S. P. Griffin, passed midshipman, commanding; R. R. Carter, passed midshipman, Henry Brooks, boatswain detached from the North Carolina. One of the vessels will have a crew of 15 men; the other, thirteen or fourteen.

Cholera at Matanzas. The following is an extract from a letter dated Matanzas, May 6th:

"We have had the Cholera very extensively among the negroes for the last week. A great number of them have died, and it has almost put a stop to business, as those who have negroes are sending them into the country."

Boston Anniversaries.—On Tuesday evening a sermon on behalf of seamen was preached by Bishop Burgess, of the Protestant Episcopal Church, in St. Paul's Church, from Isaiah xxiii. 18. The reverend gentleman mentioned that during the five years existence of the mission to seamen, the word of truth had been dispensed to 25,000 seamen, 6,000 Bibles, 4,000 prayer books, and 6,000 other religious books, had been distributed.

Disaster to a Californian. A British brig at Cape Haytien, reports having spoken April 25, the sloop Osceola, formerly a Cape Cod packet, which sailed from this port 19th ult. for San [illegible] Cape Stiles, [illegible] overcrowded and in a very leaky condition, and would make for the nearest port. Capt. Merrill leaves a wife and family residing in East Boston.

The Pope at Rome.—The Pope has finally got back to Rome.—His reception was apparently very enthusiastic, and the display most gorgeous.—The population turned out *en masse* to receive him. As he passed on, the troops presented arms, and every one knelt. He drew up in front of the Municipality, the carriage door was opened, and then the scene which ensued was without a parallel; every one rushed forward to kiss the foot which he put out.

When the host was raised the effect was grand in the extreme. The Pope, with all his subjects, bowed their heads to the pavement, and the crash of arms was succeeded by the most perfect silence. The next ceremony was the benediction of the people from the Palace, which is situate on the extreme height of the town. Nerving myself for this last effort, I struggled and stumbled up the hill. There the thousands from the country and neighborhood were assembled, and in a few minutes the Pope arrived. In the interval all the facades of the houses had been illuminated, and the light on the various picturesque groups and gay uniforms was very striking. A burst of music and fresh cannon announced the arrival of His Holiness. He went straight into the Palace, and in a few moments the priests with the torches entered the small chapel which was erected on the balcony. The Pope followed, and then arose one shout, such as was never heard: another and another, and all knelt, and not a whisper was heard. As the old man stretched out his hands to bless the people, his voice rung clear and full in the night.

"Sit nomen Dei benedictum."

And the people, with one voice, replied—

"Ex hoc et nunc et in sæculum."

Then the Pope—

"Adjutorium nostrum in nomine Domini;"

The people—

"Qui fecit cœlum et terram."

His Holiness—

"Benedicat vos omnipotens, Deus Pater, Filius, et Spiritus Sanctus."

And the people, with one voice—

"Amen!"

The Philadelphia Bulletin, in an article entitled "The True View of Womanhood," thus discourses:—"There is no inferiority, as a whole, in either sex. Each differs from its opposite, man from woman, as woman from man; but in this very difference consists, when they are united in marriage, the harmony of existence. As the deep bass of the one, joined to the bird-like treble of the other, constitutes the highest kind of music, so man and woman, by sweetest concert, move on in a heavenly harmony, when both are true to themselves and to the real duties of life."

New Towns. Four new towns were incorporated at the late session of the Massachusetts Legislature. Holyoke, taken from West Springfield; Groveland, taken from Bradford; Melrose, taken from Malden; and Clinton, taken from Lancaster, comprising all before known as Clintonville.

The N. Y. Herald says that one of the theatrical managers has offered Mrs Forrest very handsome terms to appear upon the stage. She is a beautiful reader, has a finer figure, a better voice, and more spiritual countenance than Mrs. Kemble, and would, doubtless, triumph in the art. She has indignantly refused to accept the proposition.

A Portrait.—Mrs. Lydia Jane Pierson informs the Literary Gazette, that Mrs. Swisshelm, the late political correspondent of the Tribune at Washington called upon her recently and thus describes her personal appearance:—"A small, delicately formed woman, with an unusual expanse of forehead, dark brown hair, combed over her temples, light blue liquid eyes, nose rather prominent, mouth small and disclosing very fine teeth—countenance pleasing, and smile truly enchanting. This," says Mr. Pierson, "was no other than that fearless champion of woman, that invincible terror to evil doers, that praised, blamed, and wondered at prodigy of modern times, the veritable Mrs. Jane Swisshelm." Good gracious!

Anecdote of Washington.—It is related that when the British soldiers were about to march out and lay down arms at Yorktown, Washington said to the American army, "My boys, let there be no insults over a conquered foe! When they lay down their arms don't huzza! *posterity will huzza for you!*"

CONGRESS.

Washington, Thursday, May 16.

House—Mr. Dart moved a reconsideration of the votes yesterday, referring the reciprocity bill.

On motion it was ordered to be entered on the journal.

Mr. Burt then submitted the Galphin report. He said that there was much diversity of opinion in the committee.

Mr. Brooks said that the whole affair was a spectre, and reported a resolution in favor of printing the different opinions of members of the committee.

Mr. McLane presented a minority report.

Mr. Brooks then went into the proceedings and gave a detailed history of the claim.

Mr. Conrad rose to a point of order, and inquired whether it was parliamentary to discuss this matter now.

Mr. Brooks was ruled in order, and he proceeded with his remarks.

Mr. Burt asked Mr. Brooks to yield the floor, for the reading of the report.

Mr. Brooks declined and said that if he should yield now he should not be able to obtain the floor again.

The Senate is not in session to-day having adjourned over until Monday next.

Important from Hayti.—The brig Leander, which arrived last evening from Cape Haytien, brings dates to the 2d inst. Capt. Mayo reports three American ships of war at Port au Prince, viz. the Albany, the Germantown, and the steamer Vixen. The officers of these vessels had visited the Emperor at the Palace. Their opportune arrival will tend to hasten a proper settlement of the matters in dispute between the authorities of Cape Haytien and Mr. Wilson, the consul, who was at Port au Prince for that purpose.

The most important announcement by this arrival is, however, of the repeal of the noted monopoly law; so that the commerce of the island is again restored to a proper basis.

We are indebted to a mercantile firm in this city for the following copy of the ordinance repealing the monopoly law:

Ordinance just received from Port au Prince, modifying the tariff, and providing for its abolition after July 1, 1850. From and after July 1, all monopoly rates and fixed prices to be abolished, and every one allowed to buy and sell on the best terms he can make for himself.

On and after that date, all the above rates and prices are and shall remain entirely abolished.

On and after that date the Government will pay for its fifths of the coffee at the market rates, when these are not above 40 per cent, which it fixes at its maximum price. Till then 50 continues the maximum.—*Boston Traveller.*

The Latest news from Havana.—By the arrival of the steamer Isabel, at Charleston, letters from Havana to the 9th inst., have been received in this city. These letters state that the cholera as well as yellow fever continued to rage there. The average deaths per day of cholera, for the week ending 8th inst. was *ninety four.*—The Secretary of the board of health states that the city is also very sickly with yellow fever and other disorders. At Mantanzas, the cholera had raged badly, and many of the negroes had died, and also a considerable number of the troops. The letters also state that advices had been received of the rumor of the sailing expedition of fifteen hundred men, supposed to be bound to that island. The authorities of Cuba are on the alert, armed cruisers surround the island in every direction, and should any of these vessels really attempt to land their troops upon any part of the coast they will undoubtedly meet a warm reception.—*Boston Traveller, Thursday.*

Woman Missing. Mrs. Isabel Hardy left her mother's residence in Holliston, the 8th of April last, for the purpose of obtaining employment in a factory; she was last seen in South Wrentham the 17th ult., since which time no trace of her has been discovered. Mrs. Hardy is about 20 years of age, of low stature, round favored, and light complexion. She wore a mouselin de lain dress, blue ground work, figured with a light brown vine, a long plaid shawl and bonnet of deep blue uncut velvet, trimmed with blue ribbon. Any information respecting her, communicated to her mother (Hannah Ottason) at Holliston, will be gratefully received—and our contemporaries would confer a great favor upon a worthy and anxious, but poor mother, by copying the above.

It was one of the laws of Lycurgus, that no portions should be given to young women in marriage. When this great law-giver was called upon to justify this enactment, he observed, "that in the choice of a wife, merit should only be considered; and that the law was made to prevent young women being chosen for their riches, or neglected for their poverty."

☞ Paris has no less than 3000 female professors of music.

Noah Webster.—It is stated that nearly four thousand copies of Webster's Quarto Dictionary have been sold in Boston, in a little more than two years. Thirty millions have been sold of Webster's Spelling Book—about six millions since the death of the author, in 1843. The work is worthy the support of the American people.

☞ "Laziness," says a Western editor, "grows upon people. It begins in cobwebs, and ends in chains!"

Consumption is the great curse of our northern latitude. It is the blight of domestic felicity and the despoiler of beauty. It robs the cheek of its healthful bloom, the mind of its serenity, and the eye of its brilliancy. It wastes the form, dims the intellect, and plunges its victim into an early grave. The young and old, the serious and the gay, the city belle and the country lass, are alike its prey and its victims. Blessings on the man, then, whose genius and research furnished us weapons to bid defiance to this "Dweller of the Three-fold Pall." He merits the applause and gratitude of ages—he shall have ours, at least.

Wright's Indian Vegetable Pills Sugar Frosted!—The Proprietor of this popular Family Medicine is thankful for the extensive and increasing favor with which it is received, and feeling desirous of making every improvement to his power, begs leave to announce, that he has added an OUTSIDE FROSTING to the pills, of pure White Sugar, whereby everything disagreeable to the taste or smell is entirely removed, without in the smallest degree affecting, in other respects, the excellent qualities of the medicine.—The want of an honest and convenient medium of disguising the Pills, so generally felt, is thus supplied, and it is confidently anticipated that the frosting will prove highly acceptable to the public. The occasional use of medicine is a matter of necessity with the great majority of mankind.—Whatever, therefore, is done to remove its disagreeable associations, is a public benefit. The value of Wright's Indian vegetable Pills is well understood. Innocent and efficacious, free from minerals of every description, and adapted to all the circumstances and condition of life, they are esteemed beyond all other remedies, as the greatest family medicine of the day. The frost-covering is an addition intended merely to conceal the taste and smell. These Pills will also continue to be prepared without the frosting, as heretofore, so that all who prefer them in their original state, may still be accommodated.

General Direction.—The ordinary dose for a grown person is from two to four Pills; but in cases of violent pain in any part of the day, the medicine should be taken in large doses, and repeated every night on going to bed, (or oftener if the suffering is great,) until pain or distress of every kind is removed; after which, the medicine should be taken now and with a view to keeping the bowels regular which will in a short time restore the body to a state of sound health.

For more particular directions, see the circular accompanying each box.

IMPORTANT TO CONSUMERS OF PINE OIL, PATENT FLUID, AND PHOSGENE.

HAVING first introduced the above fluids into this country, we are enabled, by early arrangements with the Patentees and Manufacturers, to supply such only as can be warranted genuine and of the best quality. We have on hand and keep in any quantity, the following articles for producing a *brilliant light*—

1st. The genuine PINE OIL, for table Lamps, for the sale of which, we are Sole Agents for this place; the best Oil in use, being clear as Lamp, and more durable than any of the Oils or Fluids. Mr. Hart B. Knowles is authorized to sell the above.

2d. THE DOUBLE PINE OIL—or Camphene, equal to spirit of turpentine—as rare Pine, and more Camphene, giving more light, and is also cheaper and cleaner.

3d. PORTER'S FLUID—the genuine kind—furnished to us by Mrs. P. himself, the original Patentee—it perfectly pure, odorless and safe.

4th. PHOSGENE GAS, producing an even and most powerful light of great beauty, resembling the gas of the cities.

All of the above, we warrant fully, and are ready to refund the money if they do not prove as warranted.

A great variety of Lamps on hand, for sale low. Solar, Argand, Astral and Common Table Oil Lamps, altered to burn the above; prices ranging from 12 1-2 cts., up as low as

Patent Fluid Gas, Wicks, &c.

B. H. TISDALE & SON,

SAVE YOUR MONEY.

VERILY, THIS IS THE AGE OF HUMBUG!

TO CONSUMERS OF FLUIDS, PATENT OILS, CAMPHENE, &c.

HOW easy it is, and still more silly, for a person to sit down and write an advertisement to deceive every one any article that they may happen to have to sell, and running down that of their neighbors, which they know to be quite as good as their own, and, in many cases, better. But such is the characteristic of the age we live in. But the public have been a good deal put out late, with these flaming, bombastic advertisements, that they now know just what weight to attach to them. We believe that advertising, when moderately, to be a benefit to all; but, like many other things, it must be overdone with

Gas! Gas!! Gas!!!

We would say to all, use your own judgement—it is the only alternative.

I have the following articles, which is the best, cheapest and cleanest, of any Oil or Fluid now used, for producing a brilliant light:

Burning Fluid,	- - -	50 cts. per gall.
Pine Oil,	- - -	75 " "
Camphene,	- - -	60 " "
Phosgene,	- - -	70 " "
Patent Fluid,	- - -	75 " "
William's Pine Oil,	- -	60 " "
Double Pine Oil,	- -	60 " "

And all the other Oils. We are daily receiving fresh supplies of the above kinds of Oil and Fluids, from the largest Manufactories in the country, and we defy all competition in price or quality. We expect that others have as good an article of some, but we know that none have a better or a cheaper. Never, in one instance, has there been a complaint brought against it, and not one family that has given it a trial, but what continues to use it in preference to all others.

Also, Lamps of every description, for burning the above, for which, I am Agent for the Manufacturers, and will sell at their prices. Wicklings, Tubes, Cans, &c., &c., and every article ever called for, kept in a Lamp store, and we advise all that desire a brilliant and economical Light, to give us a call, and they will find us ever ready to fulfil our promises to the letter.

MRS. JERVIS'S COLD CANDY,

NO POSTPONEMENT.

If you've a cold or Sunday sizzle,
With throat inflamed, chest sore and tight,
And don't take something to set you right,
You won't be cured before Monday.

But on the Monday when you wake,
With painful cough or Tuesday shake,
Perchance you'll think you better take
Mrs. Jervis's Cold Candy.

But if, now, like a man of sense,
With that feared Cough you're cheesy,
Which Mrs. Jervis's Candy is,
To-day, here you could've had it.

Like a boy, wreath of hemp around it,
By the middle of next week he'll
Find—a dangling from the gallows tree.

DR. CHRISTIE'S GALVANIC BELT, BRACELET NECKLACE AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in England and the United States, to be the most valuable *medicinal discovery of the age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, Also in DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT and ERYSIPELAS, FEMALE COMPLAINTS, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system, while under the strengthening, life giving, vivifying influence of GALVANISM, as applied by this beautiful and wonderful discovery, the exhausted energies and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *internal application*, in place of the usual mode of drugging an already sinking system, till exhausted Nature sinks helplessly under the infliction.

They strengthen the whole system, regulate the circulation of the blood, promote the secretions, and cause a healthful supply to the various organs of the body.

Since their introduction in the United States only three years, over

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies, who are peculiarly subject to NERVOUS complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with the several complaints, DYSPEPSIA, or any other variety of Nervous Disorder. In ordinary cases, this cannot be taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state of health than before; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a dyspeptic sufferer, say in the worst stage of an attack, and simply tie the Belt around the body next the skin, and in the course of a few minutes the Magnetic Fluid as directed. In a short period the Magnetic Fluid as directed. In a short period the splendid perspiration will action the nerves of the skin of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Even the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS often AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the Country could be given, and exist to all every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

'Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation:—

SOMERVILLE, New Jersey, July 12, 1849.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my case of the application of THE GALVANIC BELT AND MAGNETIC FLUID. My reply is as follows:

For about *twenty* years I have been suffering from Dyspepsia. Every year I was confined to my room, nor could I obtain permanent relief from the skill of medical or Material Whatever. All the remedies I could find out or hear of were tried, but to no effect. Indeed, I had given up all hope of ever being restored to health. About three years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to severe Chronic Rheumatism, which in your city, last, caused me indescribable anguish. In the several paroxysms, the skill of my physicians, friends of Medicine gave relief. But this relief was only temporary. Further, in the winter of 1848-9, in consequence of preaching in the open air on my own and various other churches in this region, I took cold, and my Rheumatism, which was before confined to my knee joints, extended to my whole system, and I became perfectly helpless. After I was left by my friends to myself, I resolved to try the Galvanic Belt and
